There is no change to the area number for recyclable resources. If you do not know your area number, please contact us at the address listed below.
E-mail:haikibutsutaisaku@city.nara.lg.jp

●How to put out recyclable resources

- Collection locations for recyclable resources may differ from those for burnable garbage.
- Please put them out at the designated collection location by 8:30am on the collection day. **Full containers may be collected first, but if you put your trash out by 8:30 it will be collected.**
- Please rinse the inside of the container lightly before putting it out.
- Please separate the waste into mesh bags (for cans and plastic bottles), containers (for glass bottles) and containers with lids (for paper beverage cartons) that the city will distribute the day before collection (excluding Saturdays and Sundays).
- Please remove labels and caps from plastic bottles and put them out on the "Plastic Containers and Packaging" day.
- Please separate glass bottles into three colors: "colorless," "brown," and "other colors." **"Ceramic bottles should be disposed of as "non-burnable waste" rather than "recyclable resources."**

*If the collection areas for recyclable resources and household waste are adjacent to each other, please consider their placement to ensure smooth collection on overlapping collection days.
